

Data Sheet

TriZetto® Facets CDH Suite™

Integrated benefits, funds and care management for the consumer retail market

Today's successful consumer-directed health (CDH) strategies integrate leading-edge IT solutions and business partnerships to deliver expansive, internet-based self-service capabilities to all constituents.

A comprehensive software solution

The Facets CDH Suite combines TriZetto Facets core administration technology with a pre-integrated adaptor and TriZetto portal technology components. The result is a single, highly effective consumer retail solution that enables:

- Automated, accurate and cost-effective administration of FSA/HRA/HSA benefit plans
- Management of consumer funds
- Integration with web-based tools for health and wellness education, as well as provider cost and quality assessment

TriZetto® Facets CDH Suite™ provides:

- Automated, accurate and cost effective integration of HRA/FSA/HSA plans
- A single source of information with referential integrity
- Cost savings through improved workflow and duplicate process reduction
- Debit card and financial institution integration for real-time point-of-service patient liability and claims adjudication
- Proactive, automated care management with continuous member monitoring
- Web and decision-support tools to effectively manage benefits, care and financial status and to provide ready access to critical information

The Facets CDH Suite solution is part of the Cognizant line of TriZetto Healthcare Products—a portfolio of software products that help healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care and improve the member and patient experience.

The software integrates plan benefits, debit cards and financial institutions to enable the real-time administration of high-deductible health plans and FSA/HRA/HSAs. Pre-integration with the WealthCare Card from Alegeus Technologies, the market leader in healthcare payment solutions, enables card usage for eligible medical expenses at qualified provider locations to increase member satisfaction. Member and physician payment reconciliation is performed at the time of service—with the WealthCare Card supporting real-time payment from any consumer-directed account.

Integrated benefits, funds and care management tools

The Facets CDH Suite's integrated portal technology solutions provide around-the-clock access to critical information and an array of tools that facilitate communication and transaction processing, as well as health management and decision support to help consumers more effectively manage their care.

For more information about how the Cognizant line of TriZetto Healthcare Products can help you enhance revenue growth, drive administrative efficiency, and improve cost and quality of care, call 1-800-569-1222 or visit www.cognizant.com/trizetto.

Information on drug therapy options empowers members to review and select alternatives based on timely, accurate and personalized information. Other tools enable consumers to assess the cost and quality of healthcare providers and search for evidence-based medical information to support their understanding and management of diagnosed medical conditions.

The Facets CDH Suite may be purchased by component, depending on your consumer-directed goals, and deployed on a licensed, hosted or comprehensive outsourced basis. For plans interested in advanced care management, TriZetto offers the CareAdvance Enterprise® solution—a secure, web-based communication platform for case, disease and population management that includes robust, personal health management capabilities.

In addition to the TriZetto Facets CDH Suite, we offer an extensive line of solutions and services that harness the power of digital to optimize your business. Achieve new levels of performance and efficiency with Digital Business, Digital Operations, and Digital Systems and Technology capabilities from Cognizant.

About Cognizant

Cognizant's Healthcare Business Unit works with healthcare organizations to provide collaborative, innovative solutions that address the industry's most pressing IT and business challenges—from rethinking new business models to optimizing operations and enabling technology innovation. A global leader in healthcare, our industry-specific services and solutions support leading payers, providers and pharmacy benefit managers worldwide.
