# TriZetto® Supplemental Mapping Management for Facets®
## Streamline claims-related configuration tasks.

To support an ever-growing number of specialized benefit plans, payers need greater precision and more ways to configure the claims processing rules and qualifiers that complex plan designs require.

Supplemental Mapping Management for Facets provides additional functionality for managing rules and qualifier groups—delivering faster and more accurate configuration changes, increasing administrative efficiency and optimizing configurations.

Supplemental Mapping Management for Facets is part of the Cognizant® line of TriZetto Healthcare Products—a portfolio of software products that helps healthcare organizations enhance revenue growth, drive administrative efficiency, improve cost and quality of care, and improve the member and patient experience.

**The Supplemental  Mapping Management tool:**

▌ Increases configuration and dependency transparency while streamlining configuration management tasks.

▌ Eliminates resource-intensive, error-prone

### Delivering results

▌ Streamline qualifier groups and rules configuration changes.

▌ Reduce supplemental configuration time by up to 45%.

▌ Quickly view and search reusable qualifier groups.

▌ Load qualifier values with the tool or via spreadsheet.

▌ Reduce researching and editing time to minutes.

manual editing, researching and mapping of the supplementals.

▌ Allows you to quickly edit, copy or reorder rules and base IDs.

▌ Provides a user-friendly search interface for researching qualifier groups and rules.

▌ Enables single-screen identification and mapping of rules and qualifier groups, based on relationship.

▌ Enables users to export any prefix along with their base IDs/rules/qualifier groups.

The mapping tool reduces modifications, edits and testing requirements by loading new qualifier groups, finding reusable qualifier groups, copying qualifier groups, and eliminating duplicate and unused groups. It also allows the entire supplemental map to be exported to a spreadsheet.

**Gain speed and accuracy while reducing costs**
The configuration flexibility within Supplemental Mapping Management includes interdependencies and reusability of qualifier groups for rules. While this flexibility enables payers to create unique business configurations, it increases the complexity. With Supplemental Mapping Management, you can significantly reduce the amount of time required to research, review, analyze, load and make configuration changes—without the expense of additional staff.

## Reach your objectives faster

In addition to TriZetto Supplemental Mapping Management, we offer an extensive line of solutions and services that harnesses the power of digital to optimize your business. Achieve new levels of performance and efficiency with digital business, digital operations, and digital systems and technology capabilities from Cognizant.
